Tbilisi new place for all of you who are looking for creativity

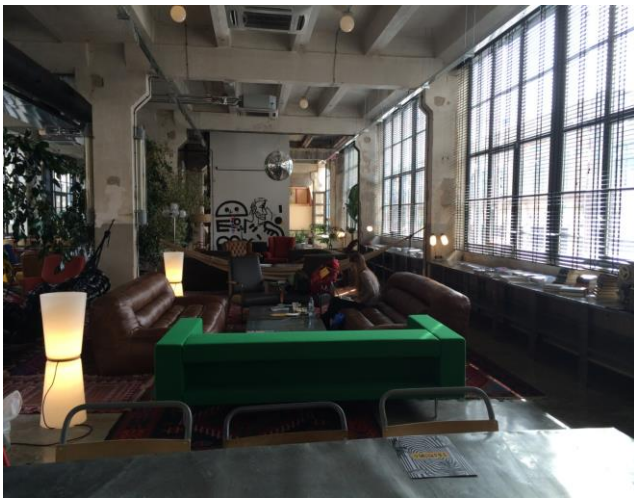

For all of you who are engaged in creative industries or are planning to be engaged or are looking for a place that has all features of industrial design then you have to visit the newly renovated area of Fabrika area. You can find the co-working place, hotel, hostel, creative studios, Impact Hub and nice places (café, small restaurants) in one area.

We were following the creative works since the last year and glad to see how old abandoned place was re-transformed into cool creative area which is still improving. Especially to see young people who are already using the place and working in different branches of creative industries.

It is easy to find this place on 8 Egnate Ninoshvili Srt, Tbilisi, in fact it is next to the office of Social Service Agency, Department of Employment Programmes, 51 Javakhashvili Str.

Our Agency hopes to soon establish contacts with creative people in this area and start cooperation that can bring benefits to all parties.
